### EXPERIENCE

#### COMPANY: UPGENICS INTERNATIONAL 09/2022 - PRESENT

Since September 12, 2022, I have been employed as an Executive Software Quality Assurance Engineer. In this role, my primary responsibilities encompass test planning, test case design, test case execution, regression testing, test report generation, and overall software quality maintenance. Additionally, I specialize in automation using Cypress.

#### COMPANY: ASSYS TECHNOLOGIES 02/2022 - 09/2022

As of March 1, 2022, I have been engaged as a Manual Software Tester for the carmandee.com project in the capacity of a Software Quality Assurance Engineer. In this role, my core responsibilities include test planning, test case design, test case execution, document preparation, and the generation of comprehensive test reports. I continue to contribute to the project in these capacities.

#### COMPANY: VISIOMATE 09/2021 - 02/2022

I served as a Front-End Web Developer Intern specializing in React JS Technology, commencing on November 29, 2021, and concluding on February 28, 2022. My primary duties involved acquiring proficiency in React JS Technology and engaging in manual testing during available intervals to enhance my understanding. Within the realm of Software Quality Assurance Testing, I actively participated in requirement gathering, test planning, test case design, test execution, test result analysis, and the generation of comprehensive test reports and charts.
